Dear Safe Grad Committee,

Thank you for considering our service as part of your Grad celebration.

Our booths offer an exceptional entertainment value and are especially suited to Grads, as it gives them a chance to have their pictures taken with any combination of classmates that they choose. The high resolution, laminated prints are then delivered to them automatically within a minute of the end of their photo session.

All of our Photoboos are configured to accept no money and the machine will start taking pictures at the single press of a button. They are always ready to go and will run continuously, capable of up to 100, prints per hour. Our new digital equipment offers a choice of black and white or colour photos and different picture styles and layouts.

Your sons and daughters, students or classmates won't soon forget the fun and excitement that was generated by our unique service.

If you have any further question please feel free to contact me at your earliest convenience. I look forward to hearing from you, but please do not wait until the last minute as bookings will be accepted on a first come, first served basis.

Sincerely,

Robert Eaton
President
